

LP RECORDS

12" UNLESS OTHERWISE INDICATED

All LP records and jackets are in 1-2 condition unless otherwise described. Some may have minor cover index marks (numbers) top left rear corner. "*Few lt. rubs*" indicate superficial marks, usually related to early mono issues which were not originally issued with internal sleeves. "Factory sealed" indicates unopened copy. **Mono unless described as Stereo.** Most autographed records are in mint condition, and possibly never played. A *few* of the older LPs (not autographed) may have a *bit* of a musty odor, having been housed in a basement (not mine!) for a number of years. If at all offensive, the jackets can be left in the sun for a few hours (without the records enclosed!) and the odor should disappear. **All autographs (signatures) here and elsewhere in this catalogue are guaranteed to be genuine.** If you have any specific questions, please don't hesitate to ask (as soon as is possible). **ALL LP RECORDS CAN BE ASSUMED IN 1-2 CONDITION UNLESS OTHERWISE DESCRIBED. COVERS ARE AT LEAST 2. ANY DAMAGE DESCRIBED.**
